# SMALL'S GAS TAX

BY PUTNEY HAIGHT.

Supreme court last week

It now remains for the attorney gen-eral to render an opinion as to the

status of the gas tax funds and the disposal that shall be made of them. One possibility is that these funds, is 137,541 of which have been passed on to the state treasurer as cutodian for the special road fund, may be or dered paid back to the distributors or gasoline who paid them. Another possibility is that it may be found that the consumer, who involuntarily paid the 2 cent tax at retail stations, is emittled to recover.

In the former case refunding of the tax to the distributor would be simple as a majority of this tax was paid under protest and clear records of the samounts exist. In the other case some thing of a problem is oftered, as the refund would probably have to be made through the dealers, and the establishment of claims by retail buyers would be almost at hopeless task. Mr. Carlstrom indicated that he would render his opinion the latter part of this week.

\*\*So. 137,541 Special Fund.\*\*

Meanwhile the uncertainty as to the world render his opinion the latter part of the actual funds collected through the office of the state that those last paid into the treasure, and the contraction of the checks sent in just previous to the Supreme court's decision, and the paper on hand is being held awaiting a legal opinion as to what shall be done with it.

Investigation showed that \$6,137,541.42 of it is held in a special road.

GOOD WORK, TRIBUNE! [Grand Rapids (Mich.) Herald.]

We have had many occasions violently to disagree with The Tribune. It is a pleasure, in this instance, to present our compliments. It has demonstrated a high sense of journalistic responsibility. We present our compliments also to Moses W. Lam-son, Tribune reporter. We nominate him for a Pulitzer award in this year's distribution of prizes notable work in the reportorial field.

THE TRIBUNE'S PUBLIC SERVICE.

[Peoria Transcript.]

Criminals know that newspapers are their enemies.

If a newspaper chooses, it may prevent a community from forgetting a particular crime. It can goad the police into action long after they have allowed the case to be forgotten. This is the more common public service which newspapers render in criminal cases. The Tribune's action was significant, but it was only so because it called attention to routine service rendered by every newspaper in the country.

CHICAGO LLOYDS is an insurance organization distinctly of Chicago, backed by Chicago capital. Its underwriters include over four hundred men well known in financial and business circles of Chicago and the Middle West.

By insuring at Chicago Lloyds you profit in two ways. First, you secure direct home office service, faster and more satisfactory. Second, your insurance dollars are held in Chicago for investment.

Adhering closely to well established lines of preferred risk underwriting, Chicago Lloyds is able to maintain reserves behind each policy far higher than the average company. Only preferred risks, the responsible and conservative among insurance buyers, are accepted. Policyholders thus secure: (1) safety in coverage and promptness in claim adjustment; (2) new lower premium rates for each standard coverage.

The statement above reflects a prosperous year. In presenting it Chicago Lloyds suggests to every responsible buyer of automobile, fire or casualty insurance that they share during 1928 the lower premium costs and high margin of safety offered by its policies. The coupon below will bring exact costs, plus a complimentary copy of "The Careful Driver's Handbook."

### YOUR THINKING, TOO!

It is the way people THINK about Pierce-Arrow that contributes to this car's great individuality

THE new Pierce-Arrow, for example, is a car of I unusual grace and style. It has a distinguished social background. But you think of Pierce-Arrow as something fine as well as fashionable something

te. It is intentionally not a car for competition, in the customary sense. No limits are set on the fineness of its detail.

It is emphatically a car for those who, having a taste for fine things, have learned that it is not an extravagance to gratify that taste.

You may purchase a Pierce-Arrow out of income if you prefer. A simplified financing plan makes this a most practical procedure.

## A Big New Idea Now Produces the **Perfect Laxative**

SCIENCE triumphs again! Today there is a new laxative that contains rhubarb, the supreme intestinal tonic. It is for sale in drug stores everywhere.

Old Fashioned Rhubarb Now in a Tablet

You know the value of rhubarb. Your mother and your doctor have used it for years. There is nothing as fine to clean out the system and purify the blood.

Now, we have been successful in combining rhubarb with other intestinal regulators and offer this perfect laxative tablet to you. Here is a tremendous stride forward in the field of intestinal elimination.

Start Using this Perfect Laxative

Take Marner's Rhubarb tonight. You will sleep better. Tomorrow you will feel clean, refreshed and invigorated. You will be rid of toxic poisons that slow you down and make you feel so listless. A couple of tablets occasionally will keep all of your digestive organs in splendid condition. You will never again need irritating habit-forming cathartics.

Marner's Rhubarb Makes You Feel Better

You will have fewer headaches, fewer blue days and will meet the world with the bright eye, clear complexion, and complete confidence that good health alone can give you. A most interesting and instructive booklet comes with both the 35c and 65c sizes of Marner's Rhubarb. We recommend and guarantee it and urge you to try it today.

# Protection in Purchasing for EVERYWOMAN...

HE DIRECTORS were perplexed . . . they had sold a lot of stock ... they had built their plant. They were all ready to go into production of an electrical household appliance that should be welcomed into hundreds of thousands of homes.

Advertising in GOOD HOUSEKEEPING was part of their program. So the product had gone to the GOOD HOUSEKBEPING Institute for testing and approval.

Back came the word that the Institute could not approve of the product. There were certain fundamental faults in construction that the Institute's rigid, intensive tests brought out.

The directors sent for the woman who headed the Institute.

They dared her to prove that the product was wrong.

Armed with the reports of the Institute's engineers, she met their chief engineer on his own ground and explained the deficiencies, He admitted her points: as the directors' faces assumed a what'll-we-do expression, she answered their unspoken question, explaining certain changes that would make the product meet the Institute's requirements.

. Six months later the product appeared on the market improved as the Institute's engineers had suggested. It lived up to the expectations of the directors, and saved them thousands of dollars. It proved itself satisfactory to the women who bought it because it had been sessed and guaranteed by GOOD HOUSEKEEPING.

# Dividends in CONFIDENCE for Intelligent Advertisers

An advertisement in GOOD HOUSEKEEPING pays the manufacturer dividends of confidence. His product shares in the faith inspired in Everywoman by GOOD HOUSEKEEPING'S editorial pages and advertising policy. Purchases made by GOOD HOUSEKEEPING readers are protected by a policy which refuses to advertise products that do not meet the standards created by the magazine. Year after year, GOOD HOUSEKEEPING rejects advertising running

into hundreds of thousands of dollars, because the products advertised do not confo to the high standards of the magazine. Because of these standards so carefully maintained, all advertising in the magazine partakes of the super-confidence GOOD HOUSEKEEPING has created. Manufacturers whose products have not yet been advertised in this rich, influential market will find that advertising in GOOD HOUSEKEEPING pays in sales and profits.

Women pay more for GOOD HOUSEKEEPING than for any other woman's magazine of large circulation. At 25c a copy, \$3.00 a year, it now has more than a million and a half readers. To these the magazine is an authoritative buying guide-in Fashions, Furnishings, Foods, Household Equipment-in all that appeals to intelligent women.

Schastian, Fig. 17.—49.—A turbulent sea tonight apparently still clutched the body of Harry Brooks, who dived to his death off Melbourne, Fig. Saturday, while trying to make aviation history in a "flivver" plans.

Spurred to greate effort by discovery today of the wreckage of his tiny traft where it had been tossed ashore by the waves, pilots of seaplanes, and two companion officers unheard from since taking off from Hampton Roads for Annapolia early this morning, a fleet of naval aircraft spent the great er part of the day in an unsuccessful effort to determine their whereabouts. Accompanied by Lieutenant Commander Hugo Schmidt of Brooklyn and Lieut. Roger Ransshausen of Springfield, Mass., Commander Ellyson, who was the navy's first air pilot, hopped off at 2 a. m. with the idea of reaching the bedside of a son who is fill at Annapolis.

Planes Take Up Search.

When at 10 o'clock Annapolis reported that the flyers had not arrived.

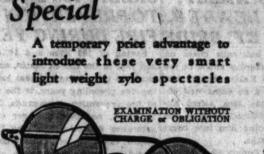

When at 10 o'clock Annapolis reported that the flyers had not arrived, seven planes were sent from the Hampton Roads naval air station, together with a number from the aircraft carrier Lexington, which is at anchor there. Planes from Annapolis took up the search from the other end, and later in the day two were ordered out from Anacostia station here.

Commander Ellyson was the first officer in the navy to qualify as a pilot of aircraft. He was trained in 1910 by the Wright brothers and Glenn Curtiss, and was the first aviator to be launched in an airplane from a catapult. VIHJALMUR STEFANSSON.

# Whiter Teeth Tomorrow

Just Remove That Dull, "Off-Color" Film Today

A beauty measure dentists urge to combat serious tooth and gum disorders

RUN your tongue across your teeth. Note whether you feel a film, a slippery coating, covering them.

If you do, you have found the reason why your teeth may look "off color" in your mirror. Have found also, perhaps, why you feel prone to tooth and gum disorders.

According to present-day dental opinion, film is a chief enemy of teeth and gums. An ever-forming enemy that ordinary brushing has failed to combat successfully. Thus a special film-removing dentifrice is advised.

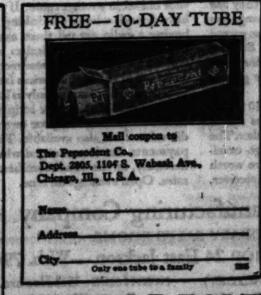

Film forms on teeth and clings. It establishes a natural breeding place for the germs, resulting in decay. It spreads over the teeth and lays them open

Film is the basis of tartar. And tartar, with germs, are a PROVED CAUSE of pyorrhea.

Now, on dental advice, thousands are turning to the Special Film-Removing Dentifrice called Pepsodent. A tooth paste DIFFERENT in formula, theory and effect from any other known. Not simply a medicated dentifrice, but a scientific film-removing agent.

Pepsodent, based on the dominant dental opinion of today, removes film scientifically from the teeth. It acts to firm the gums. It acts to multiply the alkalinity of the saliva, It whitens and cleans teeth as no old-time brushing has ever done. Use twice daily on teeth as dentists urge. Send coupon.

Soap and Ointment Announce their Golden Anniversary

FOR 50 years the name Cuticura has stood for all that is best in Toilet Preparations for cleansing, purifying and beautifying the Skin, Scalp and Hair.

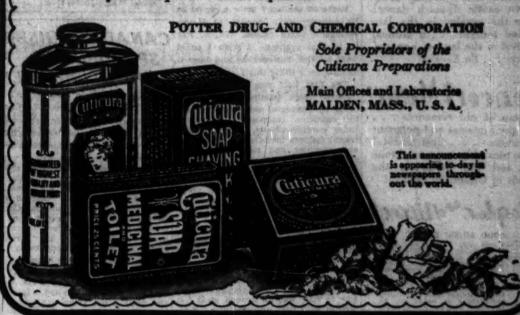

First manufactured and distributed in the United States, they are now known and used throughout the world, ever-growing demand necessitating the establishment of additional laboratories for their manufacture in Canada, England and Australia.

Originated in 1878, the Cuticura Preparations have been able, through their wonderfully effective super-creamy emollient qualities, to meet the constantly changing demands of successive generations, and are today held in highest esteem for all the needs of the daintiest of modern toilets.

The Cuticura Preparations consist of:

Cuticura Ointment Cuticura Soap Cuticura Talcum Cuticura Shaving Stick

Each is a highly developed product, with the Medicinal, soothing and healing properties of Cuticura so delicately and delightfully blended that they are unique in Toilet Requisites.

# Factory Clearance Sale Electric AC Radio Sets Ready to plug in light socket—Regular prices, \$205 and \$310—Reduced to \$Q 750 and \$11750

As long as they last

This is not the usual radio bargain sale of obsolete or orphan merchandise.

These are the two most popular models in one of the highest grade

lines of radio sets on the market. They are of the latest type, use no batteries, and are operated by 6 standard AC tubes in addition to the rectifier tube. We have been making them for a well-known sales organization which now for various reasons is unable to accept the full order.

This organization is now successfully lling them at \$205 and \$310, and will continue to do so, for they are well worth the price. No change has been made in the merchandise except to remove the name-plate. Both receivers are covered by the same guarantees and service which we give to

The table model at \$87.50 is simply designed, includes tubes and is complete except for the speaker. The console at \$117.50 is a large, excellent piece of radio furniture worth meanly the price of the whole receiver.

It is complete, with nothing more to buy, and includes both tubes and speaker.

Because the supply of these sets is too limited to liquidate through the regular channels, we will sell them di-rect to the public as long as they last.

They are open to inspection at our temporary sales rooms and factory.

This represents a remarkable opportunity to buy one of the best receivers on the market at absurdly low cost. Even if you already have a low cost. Even if you already have a satisfactory radio set, you may find it desirable to buy this one and put your old set in another room. If you have friends who are thinking of buying a radio set tell them about this opportunity. Even dealers will find it profitable to buy these receivers to sell at the regular prices later.

This sale will continue only as long as our stock lasts. A few stripped chassis for putting into your own re-

chassis for putting into your own ra-dio cabinet are also available. Time payments can be arranged where necessary, at the usual commercial rates. Open evenings till nine.

# -the pie of your boyhood

When you were a boy did you ever live on a farm or visit one? Remember the good things you had to eat, the pie-delicious, old-fashioned pie! Brown, tender crust, luscious filling-both so good you couldn't tell which you liked better, the crust or what was inside it!

We've had many persons tell us that's the kind of pie we serve at Thompson's.

We try to have our pies as tempting as pies can be made. We know absolutely that they're good. But we don't believe you have any idea how good unless you try one for yourself.

That's why we'd like particularly to have you make it a blueberry pie. The berry pies are made from fresh berries which point to ask for a piece of pie in one of our restaurants. We know if you do, in all probability you'll come back many times. It is not easy to find really good pie.

Thompson's pies are made with the choicest ingredients to be bought. To insure a tender crust the dough is mixed and chilled in the ice-box before rolling. So that we may serve fresh pie at all times, we bake every hour in the day.

Thompson's specialize in Apple Pie from January to January, cranberry, mince, and pumpkin pie in season. We also serve lemon, and cocoanut cream, as well as cherry, blackberry, and

have been mixed with sugar and kept chilled until required for use

Every item of food served in Thompson's Restaurants is as choice as the pie. Our one purpose is to procure the purest food obtainable, prepare it appetizingly, and serve it courteously, without delay.

Perhaps the most famous of all our pies is the Apple Pie. Try it for lunch or dinner today. We believe you'll agree with us that it tastes like "the pie of your boyhood." Who wants anything to

taste better than that?

Do Not Use Garage ...

Automotive engineers know that heavy grease cannot give transmissions and differentials the film of protection necessary for such vital areas. That's why most instruction books issued by automobile manufacturers advise the use of fluid lubricants—such as Graigrene.

Grease Means Big Repair Bills

A free-running lubricant is exactly as important in transmission or differential

important in transmission or differential as it is in your motor. Grease cannot give proper lubrication.

Grease freezes up—"channels"—becomes packed around—not between—the gears. The film of protection is lost. Gears mesh, metal against metal—clash—chip—work loose. Repair bills—big repair bills—follow.

Graigrene always maintains the film of protection. It is an efficient fluid lubricant—it flows into every nook and corner—covers every gear tooth all corner—covers every gear tooth all the time. Graigrene contains no asphaltum tar—that heavy, sticky impurity found in heavy grease. Cold weather does not affect Graigrene—it never hardens.

Graigrene Aids Power Heavy grease retards power Graigrene aids power, lets moving parts run smoothly. With Graigrene in transmission and differential—instead of greass—your motor will deliver 7 per cent more power. Graigrene, used instead of heavy grease, reduces friction load 26 per cent. Graigrene increases fuel mileage 5.55 per cent. These are scientific facts—they cannot be denied.

Have the grease completely removed from your differential and transmission NOW. Don't wait until you have to face the heavy repair bills. Have Graigrene put in at once. Drive to your nearest Graigrene dealer TODAY.

Four Reasons for Using Graigrene Graigrene maintains a perfect film

Yet unthinkingly this is being done.

For the smoke pall that daily hovers thicker about metropolitan centers is a slow poison, for children and for all.

Rickets, so authority says, results far more directly from lack of sunlight than from defi-cient food. And city smoke is a favorite breeding ground for respiratory diseas

but the community pocketbook suffers greatly from the burden of smoke and soot. Half a illion dollars (\$500,000,000) is the estima of the yearly smoke damage in this country.

Health can be protected. The cost of smoke can be saved to the nation. The pall of smoke can be lifted—most easily lifted by burning a naturally sociless and smokeless fuel.

Convertible into the Stock without per value of the Manhattan Electrical Supply Company, Inc., at \$50 per share up to and including December 31, 1932; at \$90 per share thereafter up to and including December 31, 1942.

The Troy Laundry Machinery Company Inc., incorporated under the laws of the State of Delaware, conducts a business founded in 1882. The Company manufactures and sells a complete line of laundry machinery and today tipess is one of the largest of its kind in the United States. The Company is controlled through the ownership of 100% outstanding capital facks, common and preferred, by the Manhattan Electrical Supply Company, Inc. A national dison of the Company's products is accomplished through branch houses and sales offices in principal cities throughout the States, and the European trade is handled by representatives in London.

The Company's plant, which is thoroughly modern, is located at East Moline, Illinois, and is one of the largest single factories engaged in the manufacture of laundry, machinery. The plant site comprises 83 acres and the various buildings contain a total of 375,000 square feet of floor space. It has direct connections with three important railroad systems. Title to the plant, now held by its subsidiary Trojan Machinery Corporation, will be transferred to the parent Company as a result of this immediag.

These Debentures will constitute the Company's only funded debt and, in the opinion of counsel, will be direct obligations of the Company. They will be unconditionally guaranteed as to principal and interest by endorsoment by the Manhattan Electrical Supply Company, Inc., which Company will also guarantee the sinking fund payments to the Trustee. The latter Company has no funded debt and this issue of Debentures will constitute the only funded debt of its subsidiaries.

Based on New York Stock Exchange quotations as of February 14, 1928, the outstanding stock without par value of the Manhattan Electrical Supply Company, Inc., had an indicated value in excess of \$6,565,000.00.

The consolidated balance sheet of the Manhattan Electrical Supply Company, Inc., and its subsidiaries dated December 31, 1927, after giving effect to this financing, shows not tangible assets of \$6,498,507.01, or over \$2,166 for each \$1,000 Debenture, and not current assets of \$3,956,579.55, or over \$1,318 for each \$1,000 Debenture.

EARNINGS: The combined net earnings of the Company and its subsidiary after depreciation and after eliminating certain non-recurring charges (averaging \$44,651 annually), available for interest on this issue and Federal Income Tax for the five years ended November 30, 1926, averaged \$482,014, or 2.47 times the maximum annual interest requirement of this issue, and for the thirteen months ended December 31, 1927, after depreciation but before interest, Federal taxes, amortization of patents and certain non-recurring charges (\$124,347.72) were \$600,347.99, or 3.07 times the maximum annual interest requirement of this issue.

The consolidated net earnings of the Manhattan Electrical Supply Company, Inc., and its subsidiaries for the year ended December 31, 1927 (Troy Laundry Machinery Co., Inc., and subsidiary, thirteen months), after depreciation but before interest, Federal taxes, amortization of patents and certain non-recurring charges (\$124,347.72) were \$990,355.42, or 5.08 times the maximum annual interest requirement of these Debentures. RESTRICTIONS: The indenture will provide that while any of these Debentures are outstanding:

(1) the Company shall not mortgage any of its properties or create any funded debt ranking equal with or prior to these Debentures except purchase money mortgages;

(2) the Company shall maintain at all times net current assets of not less than 75% of the principal amount of the outstanding Debentures;

(3) The Company may not declare any dividends on its common stocks which would cause its net current assets to fall below 100% of the principal amount of the then outstanding Debentures. Provision will be made in the indenture for a fixed sinking fund of \$150,000 per annum, payable semi-annually beginning July 1, 1928, to be applied to the retirement of Debentures. It is calculated that the sinking fund will retire at least 70% of this issue prior to maturity.

CHICAGO FACTORY BRANCH, INC. Chicago, Illinois The Chicago Tribune, Chicago, Illinois. Gentlemen:

Chicago Tribune. During the year we used 21,124 lines.

Not only do I consider The Tribune as the outstanding newspaper for the advertising of high-grade used cars in Chicago, but from my observation, it stands alone in America today in this field.

During the year 1928 we will continue to take advantage of the opportunity offered us to sell high-grade used cars at minimum cost through your medium.

Very truly yours, STUTZ CHICAGO FACTORY BRANCH, Inc.

### In a Highly Competitive Market-Stutz Won Out

WHEN dealers in fine automobiles take in as many used cars as Stutz does, their problem is a perplexing one. They must turn over these cars quickly, before storage costs and overhead drain the deal of profit.

Stutz found the predicament impossible to solve until they decided to increase their advertising in The Tribune Want Ad Section.

The accompanying letter tells what happened. In an intensely competitive market they conquered, and showed a record of supreme success. Mr. Cerf, President of the branch in Chicago, acclaimed Tribune Want Ads as standing alone in America today in the used car sales field.

To be successful Want Ads must do three things get results . . . get them quickly . . . get them economically. Stutz experience has again proved how adequately Tribune Want Ads fulfill these requirements, and you, too, can prove it to your own profit if you call . . .

For information regarding the Corporation and this issue of Debentures, we refer to a letter of Mr. Geo. M. Brown, President, dated February 27, 1928 (copies of which should be obtained from the undersigned) some of the items of which he briefly summarizes as follows:

BUSINESS originally established in 1904, comprises the manufacture and sale of prepared asphalt roofings, floor coverings, gypsum products, paints and various allied lines. The Corporation ranks as the largest manufacturer in the United States of prepared roofings and in its other lines is an important factor its products being sold for the most part under the trade name

NEW ACQUISITION: The Corporation proposes presently to acquire the assets and business of The Beaver Board Companies and The Beaver Products Company, Inc., which are engaged principally in the manufacture and sale of gypsum products, wood fibre products and

FINANCIAL PLAN: In connection with the acquisition of The Beaver Board properties and to provide for future development, the Corporation has adopted the following financial plan (a) the retirement of the existing First and Second Preferred Stock and the creation of a single new Preferred Stock issue; (b) the issue of \$13,500,000 Debentures and (c) the issue and sale of an additional amount of Common Stock.

EARNINGS: The combined net earnings of Certain-teed Products Corporation and of The Beaver Board Companies and subsidiaries, eliminating certain non-recurring charges, but after underlying interest, Canadian income taxes, depreciation and depletion, available for interest on these Debentures and for Federal taxes, based on audited reports of the respective Companies, were as follows:

The above net earnings for the year 1927 were equal to over five times the annual interest requirements on this issue of Series "A" Debentures.

ASSETS: Consolidated balance sheet as of December 31, 1927, adjusted to give effect to the acquisition of assets of The Beaver Board Companies and to the present financing, and based on an estimate of the amount of First and Second Preferred Stocks which will be exchanged for new Preferred Stock, shows total net assets, before deduction of the Debentures, equal to about 3 times the present issue of Debentures. The net quick assets, included in such amount, alone exceed the present issue of Debentures. The working capital position in said balance sheet shows a ratio of current assets to current liabilities of over 5½ to 1.

EQUITY: Based on the estimated share capitalization to be presently outstanding, at par for the Preferred Stock and current quotations for the Common Stock, there is an equity of approximately \$29,500,000 junior to the \$13,500,000 Debentures. SINKING FUND commencing March 1, 1929 sufficient to retire \$200,000 principal amount of Series A Debentures semi-annually or over half of the Series A Debentures by maturity.

The legal proceedings in connection with this issue are being passed upon by Hornblower, Miller & Garrison and by Cravath, aderson and de Gersdorff, New York City. The accounts of Certain-teed Products Corporation have been audited annually by Peat, Marwick, Mitchell & Co., and those of The Beaver Board Companies by Price, Waterhouse & Co.

Interim receipts or temporary Debentures will be deliverable in the first instance. All offerings are made "when, as and if" assued and received by us and subject to approval of proceedings by counsel.

The following information has been furnished by Mr. J. L. Kraft, Chairman of the Board of Directors of

Kraft-Phenix Cheese Company, an Illinois Cor-poration, formerly named Kraft Cheese Company, has acquired the business and assets, subject to the liabilities, of Phenix Cheese Corporation, of Delaware, and the entire outstanding capital stock of A. E. Wright Company, of Illinois.

Kraft Cheese Company, incorporated in 1924 as the successor to a cheese business originally

established in 1902, manufactures and distributes such well known and nationally advertised brands as "Kraft Cheese," "MacLaren's Imperial

brands as "Kraft Cheese," "MacLaren's Imperial Cheese," "Nukraft" and "Kay."

Phenix Cheese Corporation, incorporated in 1924, is the outgrowth of a business established more than forty years ago. In addition to its other well known brands, it is the sole maker of "Philadelphia Cream Cheese," the original cream cheese first placed on the market in 1883.

A. E. Wright Company, incorporated in 1922 as the successor to a business organized by Mr. A. E. Wright in 1915, manufactures and distrib-utes salad dressings, marmalade and other simi-

utes salad dressings, marmalade and other similar food products.

Kraft-Phenix Cheese Company is the largest manufacturer and producer of "package cheese" in the world, owning valuable patents essential to the pasteurization and sterilization of cheese. Its products are handled by practically all the large food jobbers and dealers in the country and, through the acquisition of A. E. Wright Company, its line of products will be increased and diversified to include salad dressings and similar products.

and diversified to include salad dressings and similar products.

The Company, with its subsidiaries, has manufacturing plants located in various parts of this country and also in Canada, England and Australia. Sales and distributing stations, located in eleven important cities in the United States, as well as in Montreal; Hayes, England; Melbourne, Australia; and Hamburg, Germany, are strategically situated with reference to wholesale and retail markets.

The consolidation of the above companies should effect important economies in distribution as well as in centralization of purchasing, manufacturing and marketing facilities.

Purpose of Issue
The proceeds of the issue are to be used to reimburse the Company for cash payment made in the purchase of the business and assets of Phenix Cheese Corporation (which is applied by Phenix Cheese Corporation to the retirement of its \$566,100 Five-Year 6% Debentures and \$1,-750,000 of 8% Cumulative Preferred Stock) and to fund a substantial part of the Company's bank

The Notes are to be the direct obligations of Kraft-Phenix Cheese Company and upon completion of this financing will constitute its only funded debt, with the exception of outstanding mortgage indebtedness amounting to \$118,250. The Notes are to be issued under a Trust Indenture which will provide among other things, subdebtedness, the Company will not create or permit the creation of any mortgage on any of its property or the property of any of its subsidiaries (as defined in the Indenture) without equally se-curing these Notes; such restrictions not to include purchase money mortgages on hereafter acquired properties or mortgages existing thereon at the time of acquisition or the refunding thereof, or pledges of current assets to secure loans of not more than one year made in the ordinary

Balance Sheet

The consolidated balance sheet of Kraft-Phenix The consolidated balance sheet of Krait-Phenix Cheese Company and subsidiaries whose common is wholly owned, as of December 31, 1927, adjusted to give effect to this financing, shows tangible assets, after deducting all liabilities other than these Notes, of \$17,978,200. Current assets amount to more than \$15,400,000 and current liabilities to \$4,854,424.

Earnings

Combined net sales and net earnings of Kraft Cheese Company, Phenix Cheese Corporation and A. E. Wright Company, have been as follows:

1925 1926 \$57,105,037 \$1,863,640 57,499,100 1.433.228 60,447,801 1.639.083 1927

Net earnings, as shown above, for the three years ended December 31, 1927, averaged more than 4¼ times annual interest charges on these Notes and other interest bearing obligations to be outstanding upon completion of this financing. Such net earnings for the year ended December 31, 1927, also amounted to more than 4¼

times such charges.

The outstanding common stock of Kraft-Phenix Cheese Company, at present quoted prices, has an indicated market value of more than \$25,000,000.

The management of the business will continue in the hands of those responsible for its development and successful operation in the past.

# Oklahoma Power and Water Co.

First Mortgage 5% Twenty Year Gold Bonds Series A. Due February 1, 1948

Price 96% and Interest, Yielding About 5.30 Per Cent

The Company agrees to pay interest without deduction for any Normal Pederal Income Tax up to 2%

The following information is taken from official sources:

The Company has acquired utility properties in Oklahoma for the generation and distribution of electric power and light, the production and distribution of natural gas for domestic and industrial uses, and the distribution of natural gas for domestic and industrial uses, and the distribution of water. The greater part of the Company's earnings will be derived from Sand Springs, Oklahoma, and from the so-called "Interborough District," one of the leading industrial communities in the State, lying between Tulsa and Sand Springs. The industries in this territory are varied and produce in large quantities, glass and glass products, petroleum, textiles, fabricated steel, chemicals, cement, brick

These bonds are secured, in the opinion of counsel, by a direct first mortgage on the entire fixed property of the Company.

As officially reported, gross earnings from the properties as operated by the former owners for the twelve months ended October 31, 1927, were \$1,213,383 while net earnings before Federal Income Taxes and depreciation, were \$630,724 and annual interest charges on these bonds will be \$225,000. These earnings do not reflect certain relatively small adjustments which will result from a change in ownership as explained in the circular. The net earnings after such adjustments are over 2.7 times annual interest charges on these bonds.

We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

# 'This Can't Mean Me!

# Do you, too, think yourself immune?

Many readers of Public Health Institute advertisements dismiss them with the thought... "I suppose there are plenty of people who should heed these warnings, but of course they don't apply to me."

As a matter of fact, no man or woman can be sure that he or she is free from "Social" Diseases without first being examined. For a "Social" Disease can be inherited, or it can be contracted by means of a public drinking cup, a towel or some other article of common use.

Thus there are in Chicago countless thousands of per-

sons who have a "Social" Disease and are utterly unaware of their danger. Month after month they go their ways, oblivious of the fact that they harbor in their systems the germs of one of the most destructive diseases known to medical science.

The more serious form of "Social" Disease causes more injury to mind and body than almost any other affliction. It destroys flesh and bone. It attacks the heart, kidneys and other organs. It affects the brain and spinal cord, resulting frequently in insanity, blindness and

paralysis. Worse still, it is the foremost cause of stillborn and defective infants.

This particular disease may manifest itself in any one of a number of forms. As it develops, it may be mistaken for rheumatism, arthritis, physical debility or a

nervous breakdown. Or it may appear to be a form of eye, throat, skin, heart, lung or kidney trouble.

Thus every reader, and especially those who are in any way ailing, should lose no time in taking an examination for "Social" Diseases. Your family physician can give you such an examination, or you can get it at the Public Health Institute at small cost.

Organized for public service NOT FOR PROFIT, the Institute's examination fee is so very moderate as to be within the reach of all. Yet the examination pro-

vided is thorough and satisfactory, as is proved by the fact that almost 120,000 different persons have been examined here.

When you consider that "Social" Diseases take 300,000 lives in this country every year, and that they lead to disabling afflictions which rob men of their livelihood, the importance of guarding against them is obvious. Why jeopardize your future, and that of your wife and children, when a protective examination taken today may spare you much needless misery?

It seems a bit of a come-down for Arthur to be living in this comparable curity," he observed, half to himself, "I daresay he's comfortable h, still, after the Ritzes and the Carltons—"

I heard him tell the doctor a fortnight ago that he was absolutely so I suppose that accounts for it. He was going to sell his car."

Indeed Roger saw more than he would have cared to disclose. He felt
by sure now of what he had at first only dimly suspected, namely that
be some time past Therese had been supplying Arthur with funds, and that
be since the old man's decisive move in the game, she was no longer able
be so. He could comprehend how his stepmother's terrible rage at being
being cut down, as clearly as he understood the reasons back of Hollibrojected removal to the Argentine.

They had reached the Villa Firenze, the car purred up the gravel drive

The gravity of the situation is indicated by figures from the January report of the Illinois Free Employment bureau, which shows that for every 100 jobs available 283 men were registered. In December of 1927 192 men were registered for every 100 jobs. A corresponding increase has been noted in the demands made on the United Charities, the daily expenditure for relief having jumped during February from \$1,000 to \$1,500.

"In normal times," the mail appeal stated, "ten eviction notices a month is the average coming to the attention of the district offices of the United Charities. At present there are from 200 to 300 families appealing for help

The original enthusiasm for upside-down cake seems not to have entirely evaporated, judging from the requests that come in for recipes, but since those first appearances of this recipe—perhaps revivals—no end of ways have been found for varying what is sometimes called an Hawaiian pie. # Secrets about body odor everyone should know

THE secret behind many a failure is . . . . body ador.

People who offend are not wanted either as employees or friends. You can readily appreciate why.

Yet, much as we abhor body odor, not one of us is safe from it. We bow to perspire—or we'd die. And in winter, with activities indoors and warmer, stuf-fier rooms, body odor is more noticeable than ever.

Others detect body odor -the offender doesn't

Even on coldest days, our millions of pores give off invisi-ble perspiration—often as much as a quart of waste every 14 hours.
